SMART IDEAS

Car share

The Chineham Park car share scheme is available to all companies on the Estate. The service is provided by CarShare UK and employees can register for free. Car sharing does not have to be undertaken every day, and can be as flexible as a person wants. By sharing with another person it is possible to halve your petrol costs. Home working

There is evidence that as well as reducing traffic, working from home one day per week benefits employees through lower travel costs; the employer through productivity improvements, and the environment through reducing CO2 emissions.
