# Sustainability at Chineham Park

Chineham Park is proud to be targeting net zero carbon by 2050 for managed areas, aligned with certification scheme Science Based Targets, to limit warming to 1.5°C. The park will achieve this through energy efficiency measures, procurement of 100% renewable electricity, and rooftop solar PV installations. Enhancing biodiversity across the park, minimising waste to landfill, and promoting cycling and active travel are more ways Chineham Park is helping our occupiers be more sustainable.

Chineham Park aims to generate social value in the local community. The park fundraises for local charity, Sebastian's Action Trust, and supports an apprenticeship employment programme.

# Your Community

Chineham Park is one of the region's most desirable business addresses. A delightful 90 acre parkland setting that's a breath of fresh air for the people who work there. Customer convenience and wellbeing is at the heart of the comprehensive amenity offer and events schedule. The park is equally accessible by car or bike, with superb public transport links too, including an exclusive free bus service connecting people directly to the nearby Basingstoke train station.
